No.	File	Use
1	MTI_Programmer_One_Page_Summary.pdf	Start here - one page
2	MTI_Core_Partners_System_v4_1_Final.json	Source of truth - build from it
3	MTI_App_Preview.html	Working app - try codes
4	MTI_Delivery_Checklist_For_Programmer.pdf	Tick + sign - before real build
5	MTI_Core_Partners_System_v1.json	History - v1
6	MTI_Database_One_File_Linked.xlsx	Data - 7 sheets

KEY RULES - READ BEFORE BUILD

1. Code decides path. Personal Assistant is the single entry point. 2. Identity Card after code: name, company, official entity (Customs / Taxes / Bank / FRA / other), role, code, member since, status. 3. Password: created by the person, exactly 8 chars, letter + number + symbol. 4. Work Hub: 7 cards - View, Update, New deal, Follow works, Accounts, Documents, Notifications. 5. First-time guest: graphic landing + B2B / B2C / C2C + membership flow. 6. Commission: Each partner = 3% x total_deal_commissions_collected. Base = total MTI deal commissions actually collected from deal contracts only, before any deduction. Excluded: subscriptions, total income, net profit. Example: 20,000 + subscriptions 2,000 NOT included = partner 600, not 660. No partner paid before actual collection.

DELIVERY RULE: Real build starts only after all checklist boxes are ticked and all signatures are done.
